

# Brain Teasers Worksheet #3

## A Poultry Problem

I bought some fowls the other day,  
One hundred dollars did I pay.  
Each turkey did five dollars touch,  
Each goose did bring but half as much.  
While chickens, if it must be told,  
For ten cents each were freely sold.  
One hundred fowls in all had I,  
Of each how many did I buy?

A man having a fox, a goose, and some corn, came to a river which it was necessary to cross. He could, however, take only one across at a time. If he left the goose and corn while he took the fox over, the goose would eat the corn. But if he left the fox and goose, the fox would kill the goose. How shall he get them all safely over?
